Topics covered including the traditional areas of analytical, inorganic, organic, biochemistry, forensic, physical-theoretical chemistry as well as newer interdisciplinary areas such as agriculture, materials science, computational, medicine, spectroscopy, polymers, supramolecular, surface, chemical physics, biological, medicinal/ drugs, environmental and pharmaceutical chemistry.

#### **General**

All submitted manuscripts should contain original work neither published previously nor under consideration for publication elsewhere. Articles shall be accepted from any country provided submitted in English language only. There is no page limitation for articles; however authors must strive to present their results as clearly and concisely as possible. Manuscripts should be submitted along with transfer of copyright agreement, signed by all the authors to, **The Editor, Asian Journal of Research in Chemistry, E-282 'Saikripa' Sector-4, Pt. Deendayal Upadhyay Nagar, Raipur 492 010. (CG) India**; if sent by postal mail; alternatively manuscripts can be submitted as an attachment at: [editor.ajrc@gmail.com](mailto:editor.ajrc@gmail.com). If sent by post, then duplicate copies of the manuscript should be **submitted along with a CD diskette**.

Manuscripts shall go through a peer review process to adjudge their suitability and authenticity, for publication in the journal. Please check your e-mail account frequently, because you will receive all important information about your manuscript through e-mail only.

#### **PREPARATION OF MANUSCRIPTS:**

Manuscripts should be submitted as per order: Title Page, name of author (s), Abstract, Key words, Introduction, Material and Methods, Results, Discussion, Acknowledgements (if necessary) and References. If the Result and Discussion sections are combined, then a Conclusion section should be added.

**Title Page:** The first page should contain a concise and informative title, the names and addresses of the authors and contact details of the corresponding author (postal address, e-mail, and fax and telephone numbers).

**Abstract:** It should not exceed 250 words. In the case of short communications, abstracts should not contain more than 100 words. The Abstract should be informative as to why and how the study was conducted, and what the results and conclusions were.

**Key words:** A maximum of 4 key words must be given at the end of the Abstract.

**Introduction:** This part should define the background and significance of the study by considering the relevant literature, particularly the most recent publications.

**Material and Methods:** Please provide concise but complete information about the material and the analytical, statistical and experimental procedures used. This part should be as clear as possible to enable other scientists to repeat the research presented.

**Results:** In this part, the same data/ information given in a table must not be repeated in a figure, or vice versa. It is not acceptable to repeat extensively the numerals from tables into text and give lengthy and unnecessary explanations of the Tables and Figures.

**Discussion:** This part must be written with reference to the tables and figures and by considering information from the literature. Statements made in the Introduction and Results sections should not be repeated here.
